IMPORT EXPORT SERVICES

Companies trading with these countries need to comply with these requirements for customs clearance. Failure to do so can result in severe delays in goods clearance, penalties, or even shipments being returned.

Habab Shamsa can issue the necessary certificates to meet these countries' standards and ensure smooth customs clearance. Habab Shamsa has issued more than 2 million certificates and has undertaken more assessments of more products for longer than any other organisation.

CUSTOMS CLEARANCE SERVICES

Customs clearance is a compulsory process which goods must pass every time they enter or leave a country.

Due to the complexity of customs regulations. But what exactly are customs clearance services and what support can they provide?

They can help with:

- 1- Preparing customs documentation, including correcting errors and identifying any missing information before submitting the paperwork.
- 2- Ensuring compliance with customs regulations in the destination country.
- 3- Identifying and advising on any trade agreements which can help reduce duties and taxes.
- 4- Paying customs duties and taxes for the importer, making customs clearance easier and simpler for the client.
- 5- Liaising with the relevant authorities to resolve any issues.
- 6- Providing post-clearance support for clients, such as compliance audits and record-keeping.

PROVIDING CONTAINERS TO ALL COUNTRIES OF THE WORLD

Every day, thousands of containers arrive at seaports from countries all around the world. They are carried aboard liner ships, which offer regularly scheduled service on fixed routes - much like a bus or train service does. Each shipment represents a specific supply chain.

Every supply chain is unique and involves the timely and accurate transfer of goods between various modes of transport. Goods transported by ocean containers on liner ships is placed into the container at the factory, farm or at other locations where they are produced or stored. The container is locked and sealed so the goods remain safely secured inside the container and transported with unprecedented efficiency until it arrives at the purchasers' warehouse, factory, or store. For this reason, more than 50 percent of the value of goods moved internationally by sea is now moving in containers on liner ships.

SERVICE

LAND, SEA AND AIR TRANSPORTATION SERVICES

Habab Shamsa the market-leading provider of innovative land, air and sea transportation solutions with expert staff.
